

The Best Solar Mounting Solutions

MageMount Rail-less Solar Mounting System

MageMount Rail-less Solar Mounting System

MageMount is a rail-less solar mounting system that is installed like a rail-based solar mounting system with separate roof attachments and interlocking module connectors. It provides a complete solar mounting solution with roof attachments for all types of sloped roofs at lower cost and reduced installation time with familiar and fewer components for all roof types.

As Strong as Rail-based System

Roof attachment span is up to 6 feet for landscape module layout and up to 4 feet for portrait module layout.

Fewer Roof Penetrations

30% less roof penetrations compared with rail-based mounting system.

Lower Cost and Reduced Installation Time

Install like a rail-based mounting system with familiar and fewer components.

Built-in Bonding in All Components

All mounting components including roof attachments are self-bonded and grounded with one grounding lug.

UL 2703 and Class A Fire Rating Certified

System and all components are tested in compliance with UL 2703 and Class A Fire Rating.

25-Year Warranty

Longest product warranty protection in the market.
